SELF-ORDER KIOSK SYSTEM

Reduce Queues

Contactless Payment

Speed Up Ordering

Drive More Sales

Customers
place their
orders.

Orders are
sent to the
kitchen.

Customers
follow their
order on the
screens.

Orders are
ready!
Customers
are happy!

Simplify Operations with **Centralized Price Management**

With Price Management, prices are updated at checkout, on screens, menus, and digital labels—all from a single point.

Thanks to the dual-sided checkout screen, the screens can transform into advertising spaces when there are no customers at the counter.

Take orders at the table using tablets and handheld terminals. Additionally, manage kitchen orders efficiently with kitchen tablets.

Change the atmosphere with music broadcasting, controllable from the central panel.

While the entire system runs smoothly, enjoy monitoring your sales from your laptop or mobile phone, and analyze them to create future sales-boosting strategies.

Sell Anywhere with Our Mobile Order App

The ultimate solution for restaurants, cafes, patisseries, hotels, coffee shops, food courts, and more.

Loyalty Programme
